

AUGUST 27, 2024

ACIP Recommendations: Influenza (Flu) Vaccine

Advisory Committee on Immunization Practices (ACIP)

KEY POINTS

- The Advisory Committee on Immunization Practices (ACIP) develops recommendations on how to use vaccines to control disease in the United States.
- These recommendations become official CDC policy once adopted by CDC's Director.
- Learn about current and historical ACIP recommendations for Influenza (flu) vaccine.

Published in the Morbidity and Mortality Weekly Report (*MMWR*)

The [Advisory Committee on Immunization Practices \(ACIP\)](#) provides advice and guidance to the Director of the CDC regarding use of vaccines and related agents for control of vaccine-preventable diseases in the civilian population of the United States. Recommendations made by the ACIP are reviewed by the CDC Director and, if adopted, are published as official CDC/HHS recommendations in the Morbidity and Mortality Weekly Report (MMWR).

CURRENT Influenza Vaccine Recommendations

- *MMWR*; August 29, 2024 / 73(5);1–25
